

ABOUT MUSEUM DISTRICT AESTHETIC PLASTIC SURGERY

imagine

a more beautiful you.

Welcome to MD Aesthetic Plastic Surgery. There are many important decisions you will need to make before having cosmetic surgery. One of the first and most important decisions is choosing a plastic surgeon you trust who will provide you with the best care and the best result. Consultations should not be stressful and you should feel at ease with the surgeon right from the start. We at MD Aesthetic Plastic Surgery do not believe in pressuring any patient into surgery at any time. In fact, we encourage all of our patients to get a second opinion. Having any surgery is a big decision, and there is only one right time, and that is when YOU are ready.

During your consultation, Dr. Schusterman and Hsu will assess your particular concern, whether it is facial aging, cellulite, or other body enhancements, and offer you multiple treatment options which to choose from. Most importantly, we will work with you to find the treatment option that will give you the best results based upon your personal goals.

Where Your Surgery is Performed

Where your surgical procedure is performed is an important part of a totally satisfying experience. Dr. Schusterman and Dr. Hsu perform aesthetic surgeries at the Museum District Aesthetic Surgery Center (MDSC). Overnight stays, if required, are in one of the Park Plaza Hospital's highly accommodating Park View Suites. Patients often express delight in the high quality of services and care they receive at both these facilities.

"Your safety and well being is our primary concern. We are meticulous in our approach to patient care and are committed to excellence. Follow-up visits are for life. Confidentiality is an absolute and an integral part of our personalized process for each patient."

your journey to
a more beautiful
you.*

**Dr. Mark A. Schusterman &
Dr. Patrick W. Hsu are dedicated to
your physical perfection.**

From the moment you walk into our office, expect an extraordinary, personalized experience on your journey to a more beautiful you. We are committed to providing you with the utmost in care and attention. Our staff is trained to support and pamper you.

“Each and every patient deserves our undivided attention. As plastic surgeons, we will do whatever it takes to make the process a safe, pleasant and satisfying experience for you. From initial consultation through recovery, we strive to consistently provide each of our patients with the best individual care possible. If you are a new patient, we will begin the process with you by listening to you and by encouraging you to ask many questions. Our answers will be forthright and in your best interest. As your cosmetic and plastic surgeon, your comfort and confidence is extremely important to us.”

About the doctors

About Dr. Schusterman

Dr. Schusterman is a graduate of Emory University and the University of Louisville School Of Medicine. He practiced nine years at the University of Texas/M.D. Anderson Cancer Center where he started the reconstructive plastic surgery department and instituted the microsurgery program at that institution. During his tenure at M.D. Anderson, he published hundreds of peer reviewed papers, book chapters, and invited articles. He left M.D. Anderson in 1997 and founded M.D. Aesthetic Surgery, where he has adapted his expertise in reconstructive microsurgery into advanced techniques in cosmetic surgery. He is Board Certified in Plastic Surgery and General Surgery. He is a fellow of the American College of Surgeons. He has been listed as one of the best doctors in the country for over 15 years running. He is currently a requested lecturer both nationally and internationally in reconstructive and cosmetic surgery of the breast, facelifts, rhinoplasty, and liposuction.

About Dr. Hsu

Dr. Patrick Hsu grew up in Short Hills, New Jersey. He attended Rutgers College and then went on to receive his medical degree from UMDNJ – Robert Wood Johnson Medical School. There he excelled as president of his class and graduated with numerous awards and honors (Alpha Omega Alpha). Following medical school graduation, Dr. Hsu attended the prestigious Michael E. DeBakey Department of Surgery at Baylor College of Medicine. This surgical training was and still is regarded as one of the most rigorous and well respected programs in the country. He then went on to complete his plastic surgery fellowship at UMDNJ-Robert Wood Johnson. With a strong interest and compassion for breast cancer patients, Dr. Hsu then dedicated an additional year to a second fellowship in microsurgery at the world-renowned M.D. Anderson Cancer Center. There he trained in all aspects of reconstructive surgery with a heavy focus on advanced techniques in breast reconstruction to include the DIEP and SIEA flaps. Dr Hsu has formed a very strong reputation as a plastic surgeon due to his breadth of knowledge in a wide array of plastic, reconstructive and aesthetic surgical procedures.
